## It's Tick Time!

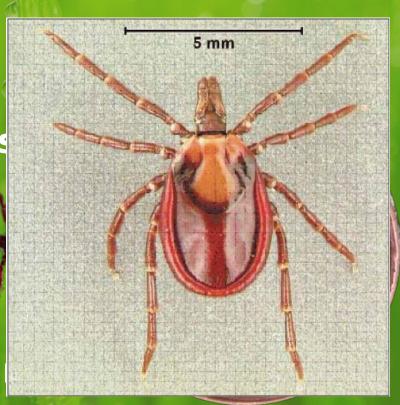

In Europe tick season is April through October

Ticks in Germany can carry the bacteria that causes <u>Lyme Disease</u> for us and our pets

4 cases were treated in Bamberg in 2005
Follow these safety tips for
young bitten is the best medical
a tick free symmer!

## What does a tick look like?

- Ticks are small!
- Ticks will climb to the top of long stalks of gras & wait until an animal or human brushes up against them.
- Take some simple precautions to avoid being fed on.

- Prevention is Best!
- To reduce the chances of being bit, avoid areas with overgrown brush, unmowed yards and fields.

- Wear insect repellant with DEET
- Wear lightweight long sleeve shirts and pants closed at wrists and ankles.
- Wear light colored clothing to make it. easier to see ticks.

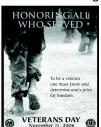

## What is Lyme Disease?

- Transmitted by the bite of an infected Ixodes
   Tick. Not spread person-to-person
- Symptoms include: Fever, headache, fatigue and a characteristic skin rash called erythema migrans. Rash is red and circular.
- Not all ticks are infectious, but if a tick is found removal should be done promptly. A person cannot become infected simply by having a tick crawl over their skin or clothing.
